

# Counties List

## Economics: National Ocean Watch (ENOW)

November 2017

NOAA Office for Coastal Management  
(843) 740-1200  
[coast.noaa.gov](http://coast.noaa.gov)

---

ENOW provides data for about 400 counties, 30 coastal states, 8 regions, and the nation. The basic geographic footprint for ENOW’s county-level data is a suite of “Coastal Shoreline Counties” determined by using the Federal Emergency Management Agency’s definition, which states that a coastal county must

- have a coastline bordering the open ocean or the Great Lakes, or
- contain coastal high hazard areas (V-zones).

ENOW makes two adjustments to the list of Coastal Shoreline Counties ([coast.noaa.gov/data/digitalcoast/pdf/qrt-coastal-county-definitions.pdf](http://coast.noaa.gov/data/digitalcoast/pdf/qrt-coastal-county-definitions.pdf)):

- removal of shore-adjacent counties with no relevant economic activity (11 counties and the District of Columbia), and
- the addition of counties that are not shore-adjacent but do have significant levels of ocean- and Great Lakes-dependent economic activity (17 counties).

Note: According to the [U.S. Census Bureau](#), three coastal counties in Alaska (02201, 02232, and 02280) were dissolved during the time series of the data set and were replaced by four newly formed counties (02105, 02195, 02198, and 02275). All these counties are provided in the data set for historical context, and have data for all sectors reported as 0 for years where the county does not exist.
